Erin Kelly has been a valued team member of Real Estate Dynamics for over 8 years. Starting in reception, Erin was quickly recognised for her strong work ethic, ability to learn quickly, resolve problems and her commitment to both the industry and the Company and has enjoyed working in most aspects of the business. Now, 8 years and multiple Diplomas later, Erin is our Accounts guru and a valued Business Support team member.

In this role, Erin is responsible for providing effective support to the Management team and clients of Real Estate Dynamics. Erin's comprehensive knowledge of industry legislation, accounts and our range of products and services, along with her diverse technical skills, has made her an excellent training resource for our clients and also our team, so they can tackle any Property Management related issue with the best solution.

Erin is one of four siblings and part of a very competitive family. This is reflected in her love of netball. Playing since she was four years old, Erin is a nationally badged Umpire, has played State League, and has previously played at representative player level. She is also a massive supporter of the Firebirds! This is along with many other hobbies, including singing, cooking, obstacle course racing and hiking.

Erin is an advocate of personal and work development, and is continuously looking to improve systems and service within the Company, and challenging herself to find a quicker and better way. Our team love Erin's delightful positive nature, helpfulness and her ability to guide them to time and cost-effective solutions.
